### Education

- **Bachelor's Degree in Computer Science** 2018 - 2021  
ISIMS - Higher Institute of Computer Science and Multimedia of Sfax
- **Technical Baccalaureate** 2018  
April 9, 1938 Secondary School, Sfax

### Experience

#### Freelance Work

**Game Developer** Self-employed 2023

Developed a 3D escape room game for a client, taking the project from concept to completion.

- C# • Unity3D

**Full Stack Developer** Self-employed 2023

Worked on a company's internal task management system: fixing existing bugs, adding new features and speeding up the development process.

- Vue.js • Python • Flask • PostgreSQL • Bootstrap

#### Entrepreneurial Ventures

**Game Developer & Co-Founder** Sofmez Studio 2022 - present

Co-founded a game development studio, collaborating remotely with an international teammate to create and publish games.

Successfully launched Mini Traffic, a 2D puzzle game, on Google Play Store and itch.io, gaining comprehensive experience across all key steps of game launch, including:

- conceptualization, prototyping, art creation, coding, level design, playtesting, iteration, ad integration, marketing, and post-launch support.
- C# • Unity3D • Photoshop

Leading the ongoing development of a trivia mobile app handling design, data collection and technical efforts

- Flutter • SQLite • Photoshop

#### Academic Internships

**Full Stack Developer** BMCAF 03/2021 - 06/2021

Developed an educational website as an end-of-studies project.

- MongoDB • ExpressJS • React • NodeJS • Bootstrap

**Software Developer** Polysoft informatique 08/2020 - 09/2020

Built a Windows inventory management program for my end-of-year project.

- C# • Microsoft SQL Server
